FORGE

Facilitating Opportunities for Reentry, Growth & Empowerment

A Peer-Led Mentorship Program at Dooly State Prison

FORGE is a 36-week, evidence-based program that trains incarcerated men to become certified peer mentors — reducing dorm conflict, strengthening rehabilitation programming, and building a safer facility for inmates and staff alike.

What FORGE Does

FORGE prepares men to facilitate evidence-based programs, mediate conflicts, lead restorative circles, and model accountability across housing units. Mentors operate within clearly defined boundaries — they do not investigate incidents, impose discipline, or replace staff authority.

The program creates a **self-sustaining pipeline**: certified mentors from each cohort train the next, building permanent infrastructure.

How It Benefits Staff

Fewer conflicts — Mentors de-escalate before incidents occur.
Stronger programming — RISE and Pathfinders get trained facilitators.
More stable dorms — Peer accountability and a culture of restraint.
Clear boundaries — Mentors support staff authority, never undermine it.

The 36-Week Curriculum

108 sessions. 3 per week. 2 hours each. Three phases with formal gate requirements:

Phase 1: Foundation
Weeks 1–12
"Know Yourself" — CBT, emotional regulation, conflict resolution

Phase 2: Development
Weeks 13–24
"Build Others" — Facilitation, MI, simulation training

Phase 3: Practicum
Weeks 25–36
"Lead & Serve" — Supervised mentoring, 60+ hrs, certification

Built on Evidence That Works

Curriculum from **Thinking for a Change** (NIC), **Moral Reconation Therapy**, **GRIP** (California), **Seeking Safety**, **SAMHSA Trauma-Informed Framework**. Structure from **PEP** (Texas), **RSVP** (San Francisco), **Defy Ventures**, **Oregon Mentors Certification Program**.

0.5%	80%	43%	$5 : $1	85%
GRIP recidivism (vs. 41.9% state avg)	Reduction in violent rearrests (RSVP)	Less likely to recidivate (RAND meta-analysis)	Return on investment (RAND Corporation)	Employment within 6 months (Defy)

What Participants Learn

Phase 1: Personal Development

- Identify and interrupt thinking errors (CBT)
- Manage emotions using the escalation curve
- 4-4-4 breathing & 5-4-3-2-1 grounding
- Assertive communication & "I" statements
- FORGE 5-step conflict resolution model
- Accountability spectrum & impact awareness
- Growth mindset & future visioning

Phase 2: Mentor Skills

- Adult learning principles & lesson planning
- Motivational interviewing (OARS framework)
- Simulation-based scenario training
- Restorative justice circles
- Crisis de-escalation protocols
- Co-facilitation practice with peer feedback
- Ethics, boundaries & confidentiality

Phase 3: Field Leadership

- Supervised co-facilitation of Phase 1 sessions
- 1-on-1 mentoring with new participants
- Independent session delivery (observed)
- Community circle facilitation
- Real-time conflict mediation
- Self-care & burnout prevention
- Review board & formal certification

The Self-Sustaining Mentor Pipeline

Cohort 1 — Trained by program founders → **Graduates** — Become certified mentors → **Train Cohort 2** — Co-facilitate Phase 1 for next group → **Cycle Repeats** — Permanent mentor infrastructure

The Stakeholder Model

FORGE treats incarcerated men as **stakeholders** — people with something at stake in the safety and stability of their environment. Instead of peer influence being used to intimidate, FORGE trains men to **reduce harm, resolve conflict, and build others up**.

A dorm where trained mentors actively build peace is safer for everyone.

Accountability & Standards

- **Zero tolerance** for weapons, violence, intimidation, gang signaling
- **Code of Conduct** governs behavior in class, dorm, everywhere
- **Peer evaluation** at every phase gate
- **Staff observation** required for advancement
- **Removal** for violations protects program and facility safety

Standard 2-Hour Session

Check-in 10m	Review 10m	Core Instruction — 40 min	Practice / Exercise — 30 min	Debrief 20m	Close 10m

Program at a Glance

216	12-15	85%	60+	790+
Hours 36 weeks	Cohort per class	Attend. required	Field Hrs supervised	Pages curriculum

Mentor Role Boundaries

Mentors **do not** investigate incidents, impose discipline, override staff, or conceal safety concerns. Safety referrals are mandatory. *The goal is stability, not control.*

Certification: 6 Competencies

Every FORGE graduate is assessed across six competencies. Certification requires **Proficient (3)** or higher in all areas.

Competency	What It Measures
Self-Awareness	Recognizes thinking errors & behavioral patterns
Emotional Regulation	Manages emotions under stress using learned tools
Conflict Resolution	De-escalates and resolves disputes constructively
Communication	Listens actively, facilitates group discussion
Accountability	Owns mistakes, creates culture of responsibility
Mentoring	Supports others' growth, facilitates independently

Ongoing Evaluation

Written Assessments — Knowledge checks at each phase gate

Simulation Scoring — Rubric-scored scenario performance

Peer Review — Cohort endorsement required to advance

Staff Observation — Facility staff flag concerns at each gate

Portfolio Review — Documented evidence of growth & skill

Review Board — Final panel evaluation for certification
