Session 13 as written runs about 105 minutes. This insert adds two short videos and one short talk, which fills the session to two hours.

What's in this insert

- **Video 13A, "Active Listening"** (2 min 2 s). Why this week turns outward, "a man who can't listen can't lead," hearing versus listening, why survival mode makes real listening hard, and what today holds. It ends on the guide's two check-in questions and holds them for 20 seconds.
- **Video 13B, "The Five Components"** (2 min 27 s). Attending, reflecting, clarifying, summarizing and validating, one at a time, each with an example from the guide. It ends on "Which one do you think will be hardest for you?"
- **A short talk on listening:** Julian Treasure, *5 ways to listen better* (TEDGlobal 2011, 7 minutes 33 seconds), with discussion questions.

Run of show (120 minutes)

Time	Segment	Min	Notes
0:00	Video 13A	2	Play it as soon as the men are seated, with the talking piece already in the center.
0:02	Opening circle	10	The video ends on the guide's check-in: "How are you doing today, honestly? Were you really listening, or were you just waiting to talk?" Start the round on it.
0:12	Review and homework check	10	As written.
0:22	Instruction: The Difference Between Hearing and Listening	8	The video has made the distinction and the survival-mode point. Ask the guide's two questions ("...clearly not listening? How did that feel?" and "Now flip it") and let the men answer.
0:30	Video 13B , then Instruction: The 5 Components of Active Listening	25	The video gives all five with an example each and ends on the guide's check-for-understanding question. Take three or four answers, then use the rest for the guide's other examples (the daughter who won't answer, the clarifying questions, the validating phrases) and for questions.
0:55	Instruction: Barriers to Listening	10	As written.
1:05		13	Eight minutes of talk, five of discussion (questions below). Introduce it in one sentence: "He studies sound for a living. Listen for the four steps he

Discussion questions for 5 ways to listen better

1. He ends on four steps: receive, appreciate, summarize, ask. Match each one to one of FORGE's five components. Which of the five does his list leave out? Why might that one matter most in here?
2. He says people are losing their listening. What makes listening hardest in this dorm? Which of today's seven barriers did you hear in his talk?
3. Think of the last time you caught yourself not listening. What pulled you away, and what would have brought you back?
4. In the paired exercise you are about to do, which one of his steps will you try on purpose? (*Carry the answers into the exercise.*)

Checklist additions

- ☐ Videos 13A and 13B and the talk loaded on the playback device and tested with sound
- ☐ Talk previewed and cleared under the facility's media rules
- ☐ The five components on the board or handout for the paired exercise (the video shows them, but the men need them in front of them while they practice)
